

PERMISSION TO USE CHILD'S PHOTOGRAPHS

Dear Parents/Guardians,

Students at Iringa International School will be involved in school activities where they may be photographed. Photographs of students may be used in a variety of media to celebrate a student's success in a particular area, for educational purposes or to promote activities at the school. Photographs of children may also be used on the school facebook page, school brochures, the school website, special displays and other promotional material.

The majority of parents are happy for their child's photograph to be used and their children enjoy seeing their photographs on the website and on school publications.

We need parental permission to publish children's photographs. On and social media site (Facebook, school website) no names will be included so your child cannot be specifically identified. Names of students will only be used when a display or a picture remains on the IIS campus. No child's photograph will knowingly be published without parent/guardian permission. Accordingly I ask that you complete the form below and return it to school as soon as possible.

Please note this permission form is valid for the duration of your child's schooling at Iringa International School; however permission may be withdrawn at any time upon written notification.

Thank you

Joan Cullen
Principal, Iringa International School
